The method of Cranial Sacral Balancing is subtle, gentle, and completely pain-free: freeing the movement of cranial sacral fluid by feeling for and releasing areas of holding in the cranial sacral sheath and in the bones of the skull. In this course, you'll learn to feel the cranial sacral rhythm (distinct from the rhythms of pulse and breath), to induce a "still point", experience distinct movement in the individuals parts of the cranium, and release tension from the entire system. The benefits of this work include the disappearance of headaches, spontaneous deep relaxation, release of old injuries, and significant lightening of moods and emotions.
