CRANIAL SACRAL BALANCING 1 (30 hrs) Mon, Tue, & Wed, Feb 26, 27, 28 & Thurs March 1 (9 am – 5:30 pm). The cranial sacral system is primarily the fibrous covering around the brain and spine, and the fluid within this covering. This system is where our human intellectual, physical, emotional, and spiritual bodies interconnect most closely. The purpose of Cranial Sacral Balancing (a system of bodywork pioneered by Dr. John Upledger over the past 26 years) is to restore optimal balance to these four bodies. The method of Cranial Sacral Balancing is subtle, gentle, and completely pain-free: freeing the movement of cranial sacral fluid by feeling for and releasing areas of holding in the cranial sacral sheath and in the bones of the skull. In this course, you'll learn to feel the cranial sacral rhythm (distinct from the rhythms of pulse and breath), to induce a "still point", experience distinct movement in the individuals parts of the cranium, and release tension from the entire system. The benefits of this work include the disappearance of headaches, spontaneous deep relaxation, release of old injuries, and significant lightening of moods and emotions. It is subtle work with amazing results. **Prerequisite:** None **Instructors:** Jim Gilkeson **Cost:** \$440 **Prepay:** 2-Wk \$430, 4-Wk \$420.

Present offerings of Lomi Lomi reflect the many styles from the past. Using arms, elbows and hands, the therapist will deliver long, flowing, gliding strokes and circular compression techniques. This will relax and rejuvenate the muscle tissue. The offering of Lomi Lomi also centers on the act of forgiveness (Ho'oponopono), which releases blockages in the body's flow of natural energy. This is key in delivering the intention of aloha, our presence, prayer, breath work and full bodywork movement. The benefits of Lomi Lomi massage therapy can provide relief of muscular skeletal pain, mental fatigue and reduce the physical effects of daily living stress. Lomi Lomi provides the opportunity for the client to rejuvenate their physical, emotional and spiritual well-being. This overall sense of well-being is embraced by the therapist as well. In this course, you'll learn to feel the cranial sacral rhythm (distinct from the rhythms of pulse and breath), to induce a "still point", experience distinct movement in the individuals parts of the cranium, and release tension from the entire system. The benefits of this work include the disappearance of headaches, spontaneous deep relaxation, release of old injuries, and significant lightening of moods and emotions. It is subtle work with amazing results. **Prerequisite:** None **Instructors:** Jim Gilkeson **Cost:** \$440 **Prepay:** 2-Wk \$430, 4-Wk \$420.
